

DSS/LE First Response for **Child Abuse Cases**

**When a Victim or Witness is a
CHILD (under age of 18):**

Assess whether the child is safe and/or needs immediate medical attention.

1) Gather information from **the reporter or a non-offending adult AWAY from the child/victim** to include:

- Names, ages, current location of victim & suspect
- Type of abuse & how they learned about it
- Where it happened/Jurisdiction
- When it most recently happened*

*If child is injured, sick, or a sexual assault incident occurred within last 72 hours, seek immediate medical attention.

South Carolina
NETWORK OF **Children's**
Advocacy Centers

Minimal Facts Interview

2) **ONLY if the reporter or a non-offending adult is not available to provide information, ask the child minimal facts questions:**

- **WHAT happened?**

(type of abuse)

- **WHO did this?**

(relationship to child)

- **WHEN did it happen?**

(*assess immediate medical needs)

- **WHERE did it happen?**

(jurisdiction)

3) **Contact your local Children's Advocacy Center (CAC)** where a more detailed interview will be conducted by a trained interviewer.
